IMPORTANT SAFEGUARDS

1. Installation cautions

- Do not block any ventilation openings.
- Always ensure that the monitor is located in a well-ventilated area to prevent the unit from overheating.
- Only use accessories specified by the manufacturer or those sold with the product
- Avoid operating or placing the monitor in the following environments: extremes of temperatures, both hot and cold; high humidity; direct sunlight; excessively dusty surroundings; avoid close proximity to other equipment that generates a strong magnetic field

2. Water and moisture

Do not use this appliance near water. To reduce the risk of fire or electric shock, do not expose this unit to rain or moisture.

3. Power cord and power cord protection

Power cords should be routed so that they are not likely to be walked on or pinched. Pay particular attention to the location of cords and plugs, convenience receptacles, and the point of exit from the appliance.

4. Product care

Do not touch the screen directly with fingers. The oils from your skin may leave marks on the surface of the screen, which are difficult to be removed and may damage the screen permanently. Do not apply pressure to the screen.

5. Cleaning

Clean only with a dry cloth.

6. Servicing

Do not attempt to service this unit yourself. Opening or removing covers may expose you to dangerous voltage or other hazards. Refer all servicing to qualified service personnel.

7. Lightning

For added protection during a lightning storm or when this unit is left unattended and unused for long periods of time, unplug the unit from the wall outlet and disconnect the cable system. This will prevent damage to the unit due to lightning and power line surges.

IMPORTANT SAFEGUARDS

8. Mains plug (2 pin/3 pin)

- Do not remove the grounding or earth connection from the power supply /mains plug.
- Always remember to unplug the monitor from the power supply under the following circumstances if the monitor will not be used for a long period of time, if the power supply cable or plug/connector is damaged or if the monitor housing is damaged or broken.

CAUTION: Do not attempt to dismantle this product. Any attempt to dismantle or remove the covers from this product will invalidate the warranty and may also result in serious injury.

INTRODUCTION

This manual explains how to correctly install, operate and get the best performance from your monitor. Please read this user manual carefully before installing your monitor then keep it near your monitor for quick reference. First, please check that the contents of the box correspond with the following checklist:

- LCD monitor
- Power cord
- VGA cable
- HDMI cable(optional)

- User manual

If any item is missing or damaged, please contact your dealer. Please keep the box and packing materials so that you may properly store or transport your monitor.

FEATURES

- The monitor is designed for use in a small work area or for those who need more work space on the desk.
- The convenient and user-friendly onscreen display allows for easy and accurate adjustments of screen size, position and screen color.
- The monitor complies with the VESA Display Data Channel (DDC) specification for Plug and Play compatibility. Advanced microcircuitry makes setup and configuration fast and effortless.
- The monitor features Advanced Color Controls for fine-tuning to meet your own personal tastes or application requirements. Use the on-screen controls to adjust the color temperature,
- RGB gain value for the best possible screen color and intensity.
- Press the Menu button and activate the Self-Diagnosis menu to determine whether your monitor is functioning normally, not receiving a signal or is receiving a signal that is out of scanning range.
- Activate the higher refresh rates of the monitor to stabilize the screen and eliminate the annoying flicker that contributes to eye-strain and headaches.
- The monitor supports the optimal display performance with 1920x1080 @ 60 Hz
- The monitor can be connected to various types of video devices with supporting video input signals such as Composite video (CVBS), and Separatevideo.
- The internal stereo speakers produce a good quality audio sound.
